Instructions

1. Cut a piece of Metallic Foil Board 4 inches high and an inch longer than the circumference of the can. Glue the Foil Board around the can, with the colored side against the metal and the white side showing on the outside.
2. Glue Wooden Craft Sticks vertically all around the can. They should be touching each other so that no paper should be visible from underneath.
3. Take a Wooden Heart Shape Popstick and Glue it to the can. If there is an empty space between where you started and ended gluing the regular Popstick, glue the Heart Popstick over that space.
4. Use Bright Wooden Color Heart Beads to decorate your Valentine gift. You can create a rim on top and on bottom as shown in the picture, or think up your own creative design.
5. Cut a piece of craft foam 1/2" x 3". Cut off 2 corners to create a "pencil point". Use your marker to decorate foam like a pencil, and write the word "WRITE" on it.
6. Complete the Valentine craft by gluing the foam pencil onto the Heart Popstick, and then finish writing the phrase, "You're just ("write") for me!" on the Heart Popstick.

Choking Hazard! Contains small pieces- not suitable for children under 3 years.
